# The Anatomy of Medical Neglect

A Medical-Legal Perspective on Supporting Connecticut's Most Vulnerable Children

## Identification and Analysis of Medical Neglect Cases

What are the causes of medical neglect?

How do you identify medical neglect?

How can you best help your child-client?

What services are available for support?

What should you do if a child in DCF care is suffering from medical neglect?

Our panel will analyze a clinically complex medical neglect scenario -  
through the eyes of a Child Abuse and Neglect Expert and DCF's Director of Pediatrics.
